Work Experience

⬤ Full Stack project leader - Monstruo Creativo
May, 2023 - Present

- I led a team to create a marketing website in NextJS that helped the company obtain new clients and make service campaigns (www.monstruocreativo.com)
- Developed a companies web application CRM in NextJS and Node to promote their brands, products and services (www.paginasdigitales.pe)
- Developed an online learning platform in Nextjs and Node that offers a wide range of paid and free courses (www.monstruocreativo.academy)
- Developed user interfaces with react libraries such as Tailwindcss and Material UI
- Made continuous deployment in cloud web based services like Digital Ocean, AWS S3 and Heroku

⬤ Full Stack React Node developer - M & M Dental Group
Ene, 2023 - Marzo,2023

- Developed a comprehensive clinic CRM using Next.js (React) and Node.js, focusing on both frontend and backend functionalities.
- Developed object oriented code in Node with 100% accordance to industry and company standards
- Adhered to industry best practices throughout development, including error handling, data security, and input validation.
- Deployed the CRM on Digital Ocean droplets, optimizing server environments and performance for a seamless user experience.
- Achieved streamlined patient management, appointment scheduling, and data tracking, enhancing clinic operations for M & M Dental Group.
- www.alpha-clinicas.com

⬤ Frontend Developer - Z & P Soluciones
Ene,2022 - Mayo, 2022

- Development of a web application in HTML,CSS and Javascript Vanilla. It is focused on the UI design to show the information and services of a client company (view demo)
- I created a small ecommerce web application in React for an IronMongery Store Aceros Comex (demo)
